HAPPY INDEPENDENCE DAY!

This July 4th is the perfect time to declare your independence away from unhealthy eating and living habits! There is nothing healthier for you and your family and loved ones, than to stop eating unhealthy, toxic foods that cause sickness and depression. Start living and embrace The Bragg Healthy Lifestyle now!

JULY – National Berries Month

Berries – Blackberries, Raspberries, Blueberries, Cranberries, Strawberries, are bursting with vitamins & minerals, the pigments that give berries their beautiful blue & red hues are healthy & delicious for you. Berries contain phytochemicals & flavonoids. Studies show they help prevent some cancers.

AUGUST – National Water Quality Month

Water is key to all body functions:

- Heart
- Circulation
- Digestion
- Bones & Joints
- Muscles
- Metabolism
- Assimilation
- Elimination
- Gland
- Sex
- Nerves
- Energy

The water you drink can make or break your health! Learn what water is safe & why. This book exposes dangers of toxic fluoride in water, toothpaste & products that are prepared with fluoride water, such as soups & even bottled juices! "This Bragg Book is a shocker & should be required reading by everyone: schools, parents, dentists & health professionals." – Chris Linville, M.D.

Visit website: bragg.com for Water Book Special (\$11.95 postpaid) and listen to newly restored Paul C. Bragg's important Lecture on Water!

BRAGG HEALTH TIP: When you get your berries home, prepare a mixture of one part Bragg Vinegar & ten parts water. Place berries into mixture & swirl around. Drain, rinse if you want (mixture is so diluted you can't taste the vinegar.) & put into fridge. The vinegar kills any mold spores & bacteria that might be on surface of berries & all fruits. So stock up on these delicious, organic, healthy gems & fruits. This keeps them fresher longer & you'll be berry healthy & happy!
