JULY is "National Berries Month"

Because of high antioxidant content, berries possess amazing health benefits. Oxidation is a normal body function. However, oxidation can be disrupted by unhealthy behaviors such as smoking, alcohol and eating unhealthy fast-junk foods, sugar, salt, etc. which results in formation of free-radicals that leads to arterial plaque and DNA damage and are precursors to cancer and heart disease! Free-radicals are suspect in Alzheimer's disease, arthritis, kidney disease, diabetes, cataracts and age-related blindness. Antioxidants are our best defense to keep body healthy! **They are found in organic fruits, vegetables, nuts and seeds, and whole grains. See Bragg.com**

Enjoy Delicious BRAGGBerry Dressing & Marinade

Bragg's Organic BRAGGBERRY™ Dressing & Marinade makes salads, veggies, smoothies, etc. special with its original healthy blend of organic "SuperBerries" called BRAGGBERRY:
• Blueberries • Raspberries • Acai Berries • Goji Berries • Grapes and • Pomegranates. **See web: BraggSaladDressings.com**

BRAGG HEALTH TIP: EAT MORE FRUITS, SALADS & VEGGIES!

In recent years we've been learning about the amazing complexity of our gut/microbial systems. Our intestines are not just pipes to discard waste. They are worlds unto themselves, processing food nutrients that can keep us healthy. How to get more Health in your body? Eat more organic fruits, salads, veggies, etc.!

You are what you eat, drink, breathe, think, say & do!

AUGUST is National Water Quality Month

Water is Key to All Body Functions!

Few things are more important to us than water. In today's world, water may contain harmful impurities. Tests have shown that tap water can be tainted with agricultural, urban, & industrial pollutants, plus harmful chemicals such as fluoride, sodium chloride, calcium phosphate, sodium phosphate and magnesium phosphate. Read Water Book, it's a life-changer & improver! → **The water you drink can make or break your health!**
