UPDATE JULY/AUG 2014 Newsletter

HAPPY INDEPENDENCE DAY!

This July 4th is the perfect time to declare your independence away from unhealthy eating & unhealthy living habits! There is nothing healthier for you and your family and loved ones, than to stop eating unhealthy, toxic foods that cause sickness and depression! Start living and embrace The Bragg Healthy Lifestyle now!

JULY – National Berries Month

BERRIES – Blackberries, Raspberries, Blueberries, Cranberries, Strawberries, are bursting with vitamins & minerals,

some health experts even say that berries are hands-down the healthiest of all fruits! It's always best to get fresh, *organic* berries, but if those are hard to come by or out of season, you can even benefit from frozen berries. Either way, keeping them around for daily consumption is a good idea. Berries have been shown effective in treating everything from muscle soreness, to vision problems, inflammation, Alzheimer's and even some cancers. Celebrate by adding berries to your diet!

BRAGG HEALTH TIP: Do you or someone you love suffer from cold hands, memory fog, gout or other health issues caused by inflammation? **Try Braggzyme.com!** An exclusive systemic enzyme blend provides nutritional and cardiovascular support you need to help maintain a healthy normal inflammatory response.

AUGUST is National Water Quality Month

Water is key to all body functions:

- Heart
- Circulation
- Digestion
- Bones & Joints
- Muscles
- Metabolism
- Assimilation
- Elimination
- Gland
- Sex
- Nerves
- Energy

Water is most important besides air and food. But in today's world, tap water may contain harmful impurities. Learn what water is safe and why. This book exposes dangers of toxic fluoride in water, toothpaste and products that are prepared with fluoride water, such as soups and bottled juices! Bragg teaches that distilled water is healthiest. To help you purify the water that comes into your home, Bragg has partnered with *WaterWise Home Purification Systems*. Visit our web: *Bragg.com*.

The water you drink can make or break your health!

"This Bragg Water Book is a shocker and should be required reading by everyone: doctors, schools, parents, dentists and health professionals." - Chris Linville, M.D.
