Bragg Books Inform, Influence & Inspire
All Ages to Live Bragg Healthy Lifestyle!

NOVEMBER & DECEMBER 2014 BEGINS HOLIDAY SEASON

It's hard to believe the Holiday Season is upon us once again. But there's no need to damage our health by eating too many fatty, sugary foods! Every day, we here at Bragg see Scientific Reports linking all manner of illnesses – heart disease, diabetes, obesity, cancer – to excess animal products and sugar in American diet! More and more medical professionals are conceding that UNHEALTHY FOODS are fueling the epidemic of sickness in America! **"You are what you Eat, Drink, Breathe, Think, Say, and Do!"** is the 100-year-old Bragg motto finally being backed by Scientists. If you're planning parties and family get-togethers, think about adding more whole grains, organic fruits, and vegetables to the menu. You can even cook a vegan turkey! Whole grains, fruits, and veggies are packed with powerful nutrients (not found in meat and dairy products), and the organic variety will insure that you're not tainting the family feast with pesticides, GMO's, and harmful chemicals.

Nov. is giving thanks Month

To truly express gratitude for all your blessings – especially your health, prepare a Happy Healthy Thanksgiving Dinner. Think about nutrient-rich alternatives to the traditional sugary, fatty meals that we all grew up with. We Americans need to get healthy again. It's up to us because no one's going to do it for us. If you need some ideas, the Bragg "Vegetarian Health Recipes" book has over 700 dishes!

Dec. – Practice and Live our Faith

As another year ends, we might want to reflect back on our lives. Are we continuing bad habits? Are we thinking positive, instead of fretting about things that may or may not happen in the future? Are we remembering to smile, and to share our smiles with others? A simple smile can make someone else's day! A smile shows we're thinking about the good blessings in our lives, instead of complaining. This shows we're focused on solutions instead of problems! It's a reflection of the inherent strength and nobility of Mankind when he walks hand-in-hand with his Creator. Each of us has the opportunity, daily, to stop and pray for a moment and request guidance from our Higher Power! Let's share our love and show gratitude to our chosen spiritual and religious traditions.

Blessings of Health & Love to You! – Dr. Patricia
